

# Two D Image View Analysis of 'dlc boundary.001'

Capture File Date: November 07, 2025

Image Note:

## Channel 1

|                    |                             |
|--------------------|-----------------------------|
| Scan Size          | 50.0 $\mu\text{m}$          |
| Scan Rate          | 2.01 Hz                     |
| Samples/Line       | 256                         |
| Lines              | 256                         |
| Line Direction     | Retrace                     |
| Data Type          | Height Sensor               |
| Scan Line          | Main                        |
| Date               | 04:16:48 PM Tue Sep 02 2025 |
| Tip Serial Number  |                             |
| Aspect Ratio       | 1.00                        |
| Capture Direction  | Down                        |
| Amplitude Setpoint | 852.07 mV                   |
| Drive Amplitude    | 25.94 mV                    |
